OBJECTIVE

Results-driven Full Stack Developer with hands-on experience in designing and developing responsive, scalable, and user-focused web applications using HTML, CSS, JavaScript, Java, and modern backend technologies. Proficient in building end-to-end solutions including RESTful APIs, database integration, and frontend development. Seeking a challenging Full Stack Developer role to leverage technical expertise, problem-solving abilities, and a continuous learning mindset to deliver high-quality software solutions and contribute to organizational success..

KEY SKILLS

Programming: Java, JavaScript, Python (Basics), SQL
Frontend: HTML5, CSS3, JavaScript
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Eclipse IDE, MongoDB Atlas, MySQL Workbench, XAMPP, ChatGPT, Google Gemini
Core Concepts: OOP, DSA, SDLC, System Design, Networking Basics
Cloud & DevOps: Cloud Fundamentals, GitHub Commands

EDUCATION

B.E – Computer Science Engineering   SGPA: 9.50 / 10
Alard College of Engineering and Management, Pune

Diploma   Percentage: 82.18%
Government Polytechnic, Awasari (Khurd)

Secondary School Certificate   Percentage: 89.20%
Vidhyadham Highschool, Kanhur Mesai

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — Skillected (Remote)

- Developed responsive web applications using HTML, CSS, JavaScript, and Java.
- Worked on frontend and backend modules ensuring smooth data flow.
- Implemented CRUD operations and authentication mechanisms.
- Followed clean coding practices and collaborated using GitHub.

Data Analytics Intern — Anudip Foundation

- Analyzed datasets using basic data analysis techniques.
- Performed data cleaning and preprocessing.
- Created reports and visual summaries for decision-making.
- Developed analytical and data interpretation skills.

PROJECTS

AI-Powered Ideation & Project Management System
Technologies: React.js, Node.js, MongoDB, Tailwind CSS, Google Gemini API

- Developed AI-based brainstorming and idea refinement platform.
- Implemented whiteboards, Kanban boards, and team chat features.

- Added RBAC, secure access control, and version management.
- Converted ideas into structured project plans using AI.

Online Hospital Management System

- Designed system to manage patient records, appointments, and billing.
- Improved hospital operations and patient care efficiency.

ACHIEVEMENTS

- Successfully organized intercollege technical event TECHNOVIA 2.0.
- Demonstrated leadership by coordinating events and technical quizzes.
- Actively participated in college-level technical activities.
